

What do our Year 7's say?

"Before coming to Beauchamps, I was very nervous. It's normal to feel anxious because it's a completely new place. My transition was great. It wasn't that hard to find my way around the school."

"I was extremely excited before moving to Beauchamps because it's an outstanding school. Settling into a new school was hard but I made friends quickly and easily. One of the best parts has been making new friends and the lessons are amazing too."

"Before coming to Beauchamps, I was scared because it's a lot bigger and I was worried I would get lost or be late to lessons. I have settled in really well and I actually like it here more than my primary school."

"It's been really easy to make new friends and everyone has made me feel really welcome. I love P.E lessons and using the 3G pitch."

"The best thing about Beauchamps is that all the teachers want you to do well and have really helped me settle in."

"I found the transition days really helpful. My favourite lesson is science because I love the practicals. They are so much fun!"

"I feel really safe in school and the behaviour is good which means I can focus and do well in my lessons."
