Algebra to work out total number of points

Win (w) = 3 points

Draw (d) = 1 point

Loss (l) = 0 points

$d + l + w + l + w + d + l + w + w$

$2d + 3l + 4w$

$(2 \times 1) + (3 \times 0) + (4 \times 3)$

$2 + 0 + 12 = 14$ points

@ United gained 14 points.
